A Division of Congressional Quarterly Inc.

### **CQ PRESS TO PUBLISH *CQ ALMANAC ONLINE EDITION***

**Washington DC, June 2007**—The wait is over! In direct response to the demands of librarians and researchers, CQ Press will publish a resource that will set a new standard in accessibility to coverage and analysis of the U.S. legislative process: *CQ Almanac Online Edition*.

Since 1945, *Congressional Quarterly* has published the *CQ Almanac*, the annual volume renowned as the standard for authoritative, in-depth, nonpartisan coverage of each year's legislative activities. Now, the *Almanac's* complete wealth of information will be available in a fully-searchable, online edition, loaded with intuitive tools and features that facilitate quick and easy historical analysis.

Users can expect from *CQ Almanac Online Edition* the same outstanding features for which CQ Press online editions are known: robust advanced search functionality, CQ Press's CiteNow!<sup>TM</sup> instant citation tool, customized user profiles, and easy document save, email, and print options.

*CQ Almanac Online Edition* will also feature one-of-a-kind retrospective research features that will be welcomed not only by students and scholars of Congress and political science, but also by undergraduate and high school students and librarians:

- **Policy Tracker** allows users to quickly link to and analyze policy and legislation that has evolved over the 60 years covered by *CQ Almanac*.
- **Decade** pages provide illustrated timelines that allow users to navigate particular eras in U.S. political history through links to related events, articles, and topics.

All these features combine to make *CQ Almanac Online Edition* the next-generation research standard librarians have been asking for.

*CQ Almanac Online Edition* will be available in a phased release in 2007, with the majority of the content and standard features available in late June and complete content and functionality, including the new Policy Tracker and Decade pages, by November.
